

MALAWI

Mission Update

November 2, 2022

Greetings Everyone,

We are always so blessed to see the ministry maturing. Our church in Thekerani was able to have an overnight prayer vigil, with preaching and encouragements. We were so glad to see them organize and carry this out successfully on their own! We are hoping to see other churches do the same thing in the very near future. We know it is very important to keep our church leaders practicing all of the training they got in September. We will be having an overnight in Machinjiri with members from many of the branches so they can get a first hand experience of an overnight and prepare for their own! Please help us pray for this.

The food distribution.

Please, also keep praying for Gloria. We were able to communicate with a vocational school for the blind. Sadly, they only accept students over the age of 18 and she is 15, but we

praise God she has already been assessed by the school and is on a waiting list, with possible entry next fall!!!!

We were able to do our third food distribution. The country of Malawi is severely struggling with hunger. This

Mack's house.

distribution we did in Bvumbwe. Everyone was very thankful for God's timing and perfect provision.

One of the orphans we sponsor, you have met before, is Mack Enock. We have a giving opportunity, if anyone is so convicted and willing, in that Mack needs a new house before rainy season comes next month. Navincha brought it to our attention

that his house may not make it another rainy season. The ministry will be building a home for him, God willing, within the next couple weeks. This will cost around \$3-4,000. If you are interested in giving, or more information, feel free to contact us!!

What a great God we serve!

Thanks so much.

Leslie
